

# Complete Wheel Protection Insurance

Damage protection for your alloys and tyres

*Complete Wheel Protection Insurance is the easy way to maintain and protect your alloy wheels and your tyres.*

## How it works

Alloy wheels allow you to improve and personalise the appearance of your car. However, alloy wheels are very susceptible to accidental damage. Even minor scuffs on the alloys can spoil the appearance of your new car, and repairing or replacing alloys can be surprisingly expensive.

Tyres are equally liable to be affected during normal driving. A raised curb can easily damage the tyre wall, and a puncture could leave you needing a replacement tyre, which is expensive, time-consuming and disruptive.

Complete Wheel Protection Insurance covers you for both accidental or malicious damage to either your alloys or your tyres. It covers you for the cost of repairs, or in the event that an alloy or tyre cannot be repaired, it contributes to the cost of replacement.

## Why take out Complete Wheel Insurance?

- You can make multiple claims per year.
- Any claims do not impact on your standard motor insurance, or affect your no claims bonus.
- Alloy wheel repair technicians come to you, at your convenience.
- Tyre repairs and replacements are handled through your local preferred supplier.
- Claiming is quick and easy, via our UK based service team.
- Talk to your dealer for more details.

Complete Wheel Protection Insurance is optional and is available from other Insurance suppliers. Please note that the cost of Complete Wheel Protection insurance may vary depending on differing levels of cover, and variable terms and conditions. Please ask for an Insurance Product Information Document which summarises all terms and conditions. Do check carefully when making comparisons.
