Specialist Protection for Motorists

Extended Warranties protect you against the unforeseen costs of mechanical or electrical failure should something go wrong with your car.

How it works

When the warranty you got with your car runs out, you are responsible for the cost of repair, replacement and labour charges if a problem occurs with your car. Mechanical and electrical failures are the issues that cause the most disruption, and incur the most cost. Although modern cars are generally extremely reliable, it is a fact of life that the older the components are, the higher the chances a fault may develop.

Extended Warranties cover the components of your car, for most mechanical and electrical faults. Your dealer can give more details on what is covered under the extended warranty.

Why take out an Extended Warranty?

- Continues where the original warranty ends.
- Covers components and labour costs.
- You can make multiple claims.
- Repairs are carried out by fully trained technicians.

Extended Warranties are optional, and are available from other suppliers. Please note that the cost of an Extended Warranty may vary depending on differing levels of cover, and variable terms and conditions. Please ask for a Product Information Document which summarises all the terms and conditions. Do check carefully when making comparisons.

Ingeni Services Group Limited, Unit 11, Atlas Works, Foundry Lane, Earls Colne, Colchester, Essex, CO6 2TE, is authorised and regulated by the Financial Conduct Authority. Our FCA Number is 747381.
